

TECHNICAL DATA SHEET

THE ULTIMATE STONE SEALING SYSTEM
Step 2

Advanced Deep Penetrating Sealer To Waterproof And Seal Concrete, Pavers, Brick, Block, Stone, Stucco, Grout, Mortar And Manufactured Stone

HYDRO-TOP is a premium deep penetrating water repellent sealer for many types of porous construction materials such as concrete, pavers, brick, block, stone, stucco, grout, mortar and manufactured stone.

HYDRO-TOP contains five unique penetrating components that work by penetrating deep below the surface to seal and protect from within. Because *HYDRO-TOP* works internally, rather than forming a weak surface film like most sealers, it will never make the surface slippery when wet.

HYDRO-TOP gives a slight color enhancement, has a natural matte finish that will never flake, chip or peel.

HYDRO-TOP can be used alone as a high performance clear penetrating sealer, or over *INNERSEAL DPS* as the second step in the Wakefield Stone Sealing System. This revolutionary two-step system not only protects, but also enhances and strengthens your natural or manufactured stone, grout and mortar. The Wakefield System is hands down the most effective product available for protecting stone masonry and stopping moisture intrusion that can cause dangerous mold problems within stone walls.

See separate application instructions for step 1 (*INNERSEAL DPS*). Both *INNERSEAL DPS* and *HYDRO-TOP* are safe, VOC compliant and easy to use. The Wakefield Stone Sealing System protects and enhances without changing the sheen or texture of the surface, leaving a completely natural appearance.

NOT RECOMMENDED FOR USE ON NON-POROUS MATERIALS SUCH AS POLISHED STONE AND TILE.

See separate detailed application instructions for applying *INNERSEAL DPS* and *HYDRO-TOP* before using on any concrete, stone or masonry surface.

MADE IN THE U.S.A. BY:

Murfreesboro, TN 37127

DIRECTIONS FOR USE:

Surface Preparation:

- Remove all existing coatings, sealers and / or curing compounds. Completely clean all oils, efflorescence and / or contaminants from the concrete or stone surface. Use only cleaning methods suitable for the substrate you are cleaning.
- Use only the amount of cleaners necessary. Surface and pores must be free of all cleaners before applying *HYDRO-TOP*.

Application Instructions:

- Allow surface to dry completely.
- Mask off all areas not intended to be sealed.
- Blend *HYDRO-TOP* thoroughly with squirrel mixer before using.
- Strain product. Some coagulation is normal due to it's high reactivity.
- Apply with low pressure sprayer and/or applicator brush.
- Apply liberally, being sure to saturate all areas completely.
- Do not allow product to puddle.
- Vertical walls - apply from bottom up.
- Allow to dry 8 hours for foot traffic and 72 hours for vehicle traffic.

Specifications:

Freeze Harm	Do not allow to freeze
Shelf Life	2 Years
Solvent for Clean-up	Water
Toxicity	None
Coverage Rate	Approximately 125 sq. ft. per gallon

Detailed Application Instructions, Tech Data Sheets, MSDS, and Color Charts Available at www.WakefieldMfg.com

Manufacturer's Guarantee:

When used as directed, the manufacturer guarantees that *HYDRO-TOP* will perform as represented. If for some reason you're not satisfied, contact your distributor and the manufacturer will supply you enough *HYDRO-TOP* for another application. If it is determined that the product was faulty, a refund of the purchase price may be made at the discretion of the distributor.

Safety Information:

CAUTION: KEEP OUT OF REACH OF CHILDREN!

MAY BE HARMFUL IF INHALED. MAY CAUSE SKIN AND RESPIRATORY TRACT IRRITATION. PROLONGED OR REPEATED CONTACT MAY DRY SKIN AND CAUSE DERMATITIS AND BURNS. MAY BE HARMFUL IF SWALLOWED.

- Eyes:** **Wear safety goggles. May cause irritation and redness. Flush with cool clean water for at least 15 minutes. If irritation persists, get medical attention.**
- Skin:** **Wear appropriate skin protection. May cause irritation and redness. Wash thoroughly with soap and water.**
- Ingestion:** **May be harmful if swallowed. Do not eat, drink or smoke during application. Do not induce vomiting. Get medical attention immediately.**
- Inhalation:** **Use only with adequate ventilation or respiratory protection. May cause respiratory tract irritation. IF INHALED, remove to fresh air. IF NOT BREATHING, give artificial respiration. Get medical attention immediately.**

BEFORE USE, REVIEW MSDS AND SEPARATE APPLICATION INSTRUCTIONS FOR FURTHER INFORMATION!
